

## TECH TALK

# "Siemens – Case Studies in Wireless Implementation & Remote Access in Automation System"

Rochestown Park Hotel, Cork  
Wednesday, 27<sup>th</sup> May 2015, 19:30pm

In this presentation **Ian Poulett– Siemens** will discuss two case studies.

**Case Study 1:** Will cover the design and **implementation of a Wireless Network** within an industrial environment. Focus will be on the effects of interference, equipment choice and security considerations.

**Case Study 2:** Will cover the implementation of **secure remote access to an industrial automation system** and electricity sub-station with demonstration.

### About Ian Poulett and Siemens

#### SIEMENS

**Siemens AG** (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 165 years. The company is active in more than 200 countries, focusing on the areas of electrification, automation and digitalization.

**Ian Poulett** is the Siemens Sales Manager for UK & Ireland for the Simatic NET Industrial Communications and Identification portfolio and services. Ian has over 15 years' experience of working in the industrial communications sector; concentrating on secure, resilient failsafe and high available Ethernet using communications, fibre optic, copper, xDSL and wireless within the industrial, mobility and the utilities sector.

Ian joined Siemens in 2012 following the acquisition of Ruggedcom where he had spent six years running RuggedCom in the UK & Ireland.
